As a fitting termination to the successful evening, several males, no names, no pack drills, gave an exhibition of tepischorean art a L'Ecosse. There will no doubt be many requests for repeat performances, and those who missed the display have something to look forward to, say on January 1st. Perhaps they will hire a hall and a piper.

His was then wheeled in and placed before the guest of honor. The gifts unwrapped and passed for the admiring gaze of all present.

Introduction

There is something fundamentally wrong with our present human society. We believe the trouble is to be found both in individuals and in the social order.

In business and industry material values are in theory and practice generally placed above human values. The making of money comes before the making of men.

Our present competitive society encourages and creates selfishness which finds expression in many cruel forms, both individual and corporate and results in grave injustices and in security of life.

The machine which ought to be man's friend, has brought wholesale unemployment and despair.

The prevailing poverty and suffering is unnatural and unnecessary in that it exists in the midst of abundance.

Race Prejudice

There is such a wide spread race prejudice, religious intolerance and national economic warfare as, together with the prevailing competition in armaments, lead inevitably to war.

These clearly observable facts constitute an inescapable challenge to youth.

We have faith in Canadian youth and believe they will respond to a definite challenge to save their country. They will not be stopped by the greatness of the task, nor the difficulties to be met.

There is imminent danger that in Canada as in other countries such attempts will be made to change the present impossible situation as will be accomplished by force and violence the loss of individual liberty and the end of democracy. We believe it is possible to build by constructive, peaceful, Christian means a social order based on justice and liberty and brotherhood.

STATEMENT FROM PRESIDENT OF U G G

H S Law, president of United Grain Growers Limited, issued the following statement on behalf of the Board of Directors of the Company while in Edmonton for the annual meeting of United Grain Growers.

Impartial inquiry and recommendation obviously by the board of grain commissioners, is required to learn if bear raids were made recently on the Winnipeg exchange by outside interests, and if regulation by the exchange against such attempts is needed.

Mr Law said that it is obvious that such matters are not to be satisfactorily settled by a series of contradictory statements issued to the press, or by representations by interested parties made directly to the government.

He declared that the board of grain commissioners commands the respect and confidence of the country and that the body could be given the status of a commission of inquiry.

Mr Law said that the present regulation of grain handling under the provision of the Canada Grain Act and the board of grain commissioners represents the accomplishment of years of experience and study, and is to be regarded as a substantial and satisfactory achievement. Whatever changes may from time to time be required in connection with grain handling should be based on the solid foundation already established.

THE U S ELECTIONS

President Roosevelt has been given a strong vote of approval in the elections held last week, despite all the adverse criticism. The President was of course sustained by thousands of votes from persons who have been benefitted by his lavish outpouring of funds; but more than these support of the President. It is evident that a majority of the American public approves of the new deal up to date at any rate; approves of economic experimenting in the Rooseveltian manner. An exchange says the President's popularity is due to his smile and his optimism, but it takes more than charm plus open handed generosity with public funds to win a national election in times like these. The new deal for all the faults, has been definitely endorsed.

THE C C Y M

On page two we are publishing an article under the letters C C Y M of Canada which being interpreted means the Christian Commonwealth Youth Movement. An article will be published each week in the Standard by the National Council of this group of young people who have as their object a more equitable distribution of the necessities and comforts of life and the elimination of war. They have set a very worthy ideal toward which to strive, and adherents to their cause are increasing rapidly. We say most fervently, "May their life increase". Archbishop Swanson

said in his very able address Sunday last only by such methods can war be made obsolete.

LETTER TO THE EDITOR

To the Standard—
For many years I have been interested in the problem of war. I am trying to work out a solution for peace of the world and noticed in the issue of October 24th, an article on Pacifism and Peace, and answered by the Standard, that there are many who would line up under the banner of Peace. I admit that war does not bring any good to any man, neither does man's inhumanity to man, which has destroyed more lives and caused more trouble than war. The Standard stated that war could be destroyed by disarmament. I feel that belief is wrong. We can trace war from the beginning of time and also man's inhumanity to man, and whatever is the cause of one is the cause of the other. Let us ask ourselves is war the creation of armament or armament the creation of war. We find the former is the case. If we would study Biblical history and scientific knowledge we would learn that the laws which govern material man, are the creations of war.

Some of these forces are greed, selfishness, deceit, jealousy, these are the cause of war troubles and these forces are the laws of nature which govern us.

We must destroy these forces if we want to destroy war.
Yours truly, R. Bailey, Strathmore.

GYMNASIUM OPENED MONDAY NIGHT LAST

The official opening of the Strathmore Gymnasium took place Monday evening in the room in the Public School fitted up for this purpose. About forty boys had assembled, garbed in every type and color imaginable of gym suit.

Full of pep and excitement the boys were ready to begin work in earnest on the mat and the horses, etc.

Mr. E. F. Cameron, director, addressed the boys on the regulations to be followed, and asked for their cooperation in making the gym a success. Much credit is due Mr. Cameron for his interest in helping to promote the gym and undertaking to direct the activities. Mr. French on behalf of the School Board addressed the boys. He said that all such enterprises must have some authority and in this case it is the School Board, and that Mr. Cameron and his assistants have this authority and consequently gym classes are under the same restrictions and discipline as during school hours.

Mr. French explained his motive in promoting the swimming pool and gymnasium, being to give the boys a chance to develop physically, and to encourage many habits.

Principal Crowther also spoke briefly to the boys, assuring them of the interest of the school board in their behalf and asking the full and manly cooperation of the boys. In making the gym the helpful addition it may prove.
